ABOUT THE DEPARTMENT OF FINANCIAL STUDIES

The Department of Financial Studies (DFS) conducts a two-year (full-time) Master of Finance and Control (MFC) Programme. DFS is a place for those who aspire to enhance their managerial efficacy in the finance industry. It endeavors to provide the industry with qualified, resolute and dedicated finance professionals. Since the past two decades it has held on to its strengths of profound knowledge, rational problem solving, global experience, cross-functional integration and pioneering spirit.

DFS rises beyond the acquisition of knowledge, concepts and skills. The drive, initiative and proactive nature of the students find an expression through varied extracurricular activities and events. These activities are organized under the aegis of the student body AFCON (Association of Finance and Control).

UGC-SAP - AN INDUSTRY INTERFACE PLATFORM

The University Grants Commission (UGC) provides support to Department of Financial Studies under its Special Assistance Programme (SAP). This is done in recognition of the Department being a Centre of Excellence. It is an annual event held with an objective to nourish the industry linkages and amalgamate students' theoretical knowledge with the pragmatic insights of professionals. The event has been continually graced with the presence of prominent personalities from the corporate world and the academia.

UGC-SAP 2009

Building on the overwhelming success of UGC-SAP 2008, this year the seminar promises to be bigger and better than ever before. Based upon the theme of *'Implications for Corporate Strategy and Management Learning'*, it endeavors to discover new paradigms needed to reshape the economics of the world and identify areas of study which have acquired increased relevance in the post crisis era.
